. . . The Great Teacher once related the story of the wayfarer, who, set upon by thieves, besought the help of passers by. In the end the Samaritan, a supposed enemy, not only rendered immediate help, but gave of his time and sustenance to re-establish the wayfarer in health and circumstance.

as an ever-present necessity which we term "charity." The original sentiment that surrounded the word charity has been somewhat lost in the present heartless, organized efforts of the modern city.

... It is refreshing, therefore, to see that in Winnipeg public spirited citizens have not lost sight of the Great Teacher's original meaning of charity. True, more could be done, perhaps, than is presently

being accomplished, yet much praise is due those who, year in and year out, have done great things for the health of the citizens, the care of the needy, and the protection of the less fortunate. . . . In the early days of the city, men of vision planned the city's parks and playgrounds. The result, today, is that Winnipeg has many delightful parks, where in the summer months recreation

and rest can be freely enjoyed amid the beauties of nature. In all, Winnipeg's parks comprise one thousand and twenty acres of land.
